Invitation to nominate – The Anders Jahre Awards for Medical Research 2024

On November 7th, 2024 two medical prizes will be awarded.

I. The Anders Jahre Medical Prize for outstanding scientific activity or results within Nordic medicine. The prize amounts to NOK 1 000 000 (approximately € 86 000).

II. The Anders Jahre Medical Prize to young medical investigators within the Nordic countries. The candidate must be below the age of 40 by June 15, 2024. The prize amounts to NOK 400 000 (approximately € 35 000).

All professors of medicine serving in a Nordic country are invited to nominate potential awardees. The nominations must be received before February 1, 2024.

In order to be processed each nomination should be accompanied by:

- A thorough explanation of why the nominee should be considered for the prize.
- A list of publications from the last 5 years (limited to publications with the nominee as corresponding author), as well as a list of up to 20 selected publications.
- Curriculum vitae for the nominee.

The submitted material should be in English, in pdf format and is not to exceed 3MB. Previously submitted nominations must be submitted again, following this year's submission format, in order to be processed.

Letters of nominations should be sent to the secretary of the prize committee, Ingunn Rode Grorud (i.r.grorud@medisin.uio.no).

The prize is an important recognition and incentive for active scientists. The prize committee especially encourages nomination of female candidates for the senior award as well as candidates for the young investigator award.

Sincerely yours

Svein Stølen
