I. Criteria for the assessment of an exam in HGO4040

The exam for HGO4040 is a take-home exam. The following criteria should be applied in the assessment of the paper:

- The paper will address the given topic/question.
- The student is free to choose a particular perspective, approach and/or interpretation of the question. This must be explicitly substantiated.
- The paper must demonstrate active engagement with the self-selected syllabus. Additional sources can also be applied but to a minor extent.

A good HGO4040 exam paper is ...

- ✓ Focused, systematic, clear and well structured.
- ✓ Has a line of argument, a direction.
- ✓ Is theoretically informed: includes an analytical framework and uses it in the discussion.
- ✓ Can be empirical and build on cases to be analyzed, but it is not simply descriptive.
- ✓ It provides a coherent and relevant discussion, assessing and contrasting presented material.

Based on the above, the following aspects will detract from the grade:

- Limited or absent use of the course syllabus.
