

## **ECON 4120: Mathematics 2**

### **Fall semester 2014**

It is required that students (attempt to) solve all seminar exercises BEFORE attending the seminars. Working in small groups is also a good idea.

#### **Seminar 2, week 37**

The following problems are taken from the exam problem collection (compendium).

Problem 15

Problem 49

Problem 94

Problem 100 (a), (b)

Problem 104

Problem 127 (a), solve this one both by parts and by substitution.

Note that for the definite integrals you need the lecture of Tuesday (Sep 2nd).
