

# AI Act – State of play and Danish impacts

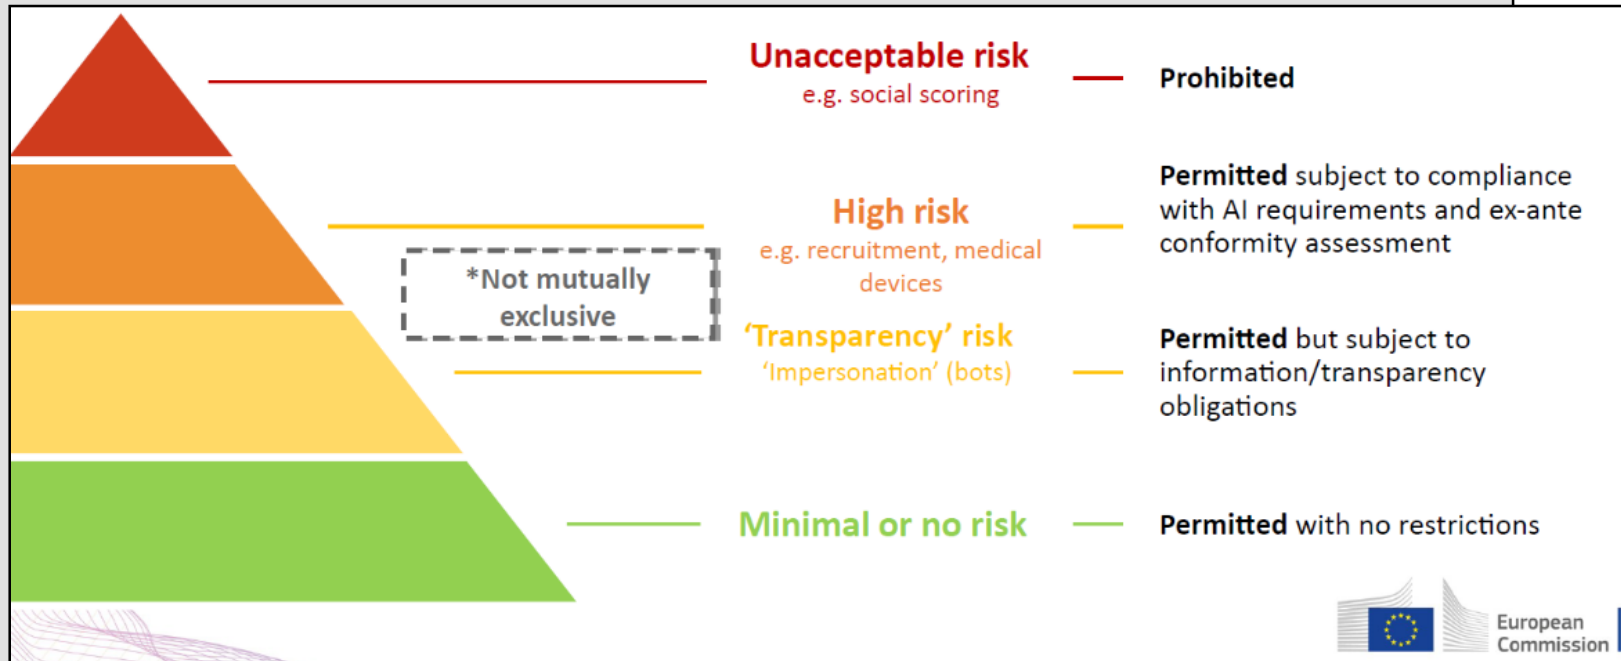

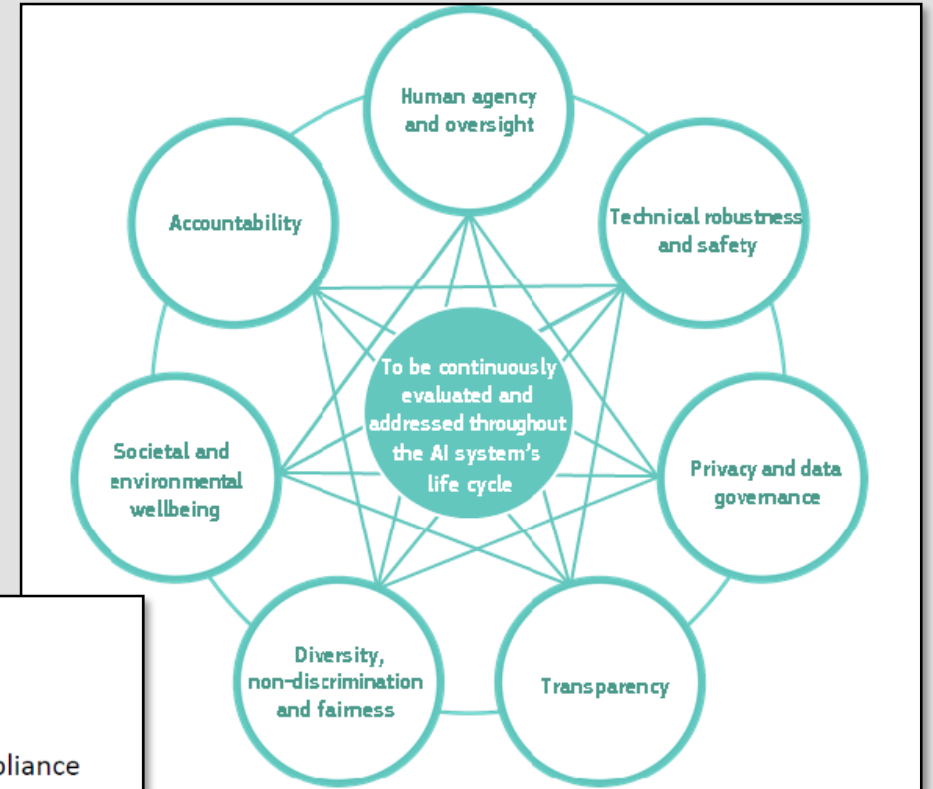

13th October 2023

digitaliserings og  
ligestillingsministeriet

# Content of the AI Act

Risk-based approach depending on the use of a system

# Danish priorities

## **Risk-based approach**

- Narrow definition
- Horizontal risk-assessment and precise high-risk use cases

## **Effective enforcement**

- At EU level – Commission or AI Office – at least for general purpose AI and/or foundation models

# State of play

## **Final phase of the negotiations**

- Possibly last trilouge 24th of October

## **Main outstanding issues**

- Prohibitions
- General Purpose AI / Foundation Models
- Governance structure
