

Agreement of Supervision Department of Social Anthropology

This agreement specifies the supervision between

Student:

Supervisor:

Theme/subject of the master project:

The supervision relationship is regulated in the *Ethical guidelines for supervisors at UiO*: "<https://www.uio.no/english/about/regulations/ethical-guidelines/ethical-guidelines-supervisors/>". Both student and supervisor are expected to know these.

Scope and limitations

The scope of the supervision is 12 one-hour sessions: 3 in the first semester, 1 in the second semester, 3 in the third semester and 5 in the fourth semester. Granted leave of absence is not included in the counting of four semesters. Guidance that covers more than 50 pages of the student's work counts as two sessions. Unused sessions the first three semesters cannot be transferred to a later semester. A maximum of 2 unused sessions in the fourth semester can be transferred to the fifth semester by application. No more than 12 supervisory session will be provided and there is no supervision beyond the fifth semester. If the student for a period does not want supervision, the department and the supervisor must be notified. If the supervisor is unavailable for an extended period, the department will ensure that supervision is offered by another supervisor. Sessions already held is subtracted from the total amount of sessions in the case of change of supervisor.

Termination of the agreement

The agreement is terminated when one or more of the following situations occur:

- the student has been enrolled in the programme for four semesters (leave of absence not included), or five semesters if the student is granted a transfer of up to two unused supervisory sessions from the fourth to the fifth semester.
- the student completes the final exam of the master's programme
- the student has completed the total number of supervisory sessions he/she is entitled to
- the student is allocated a new supervisor
- the student withdraws from the master's programme

Guidelines for supervision during the master programme, as well as information of rights and duties are available on the programme pages: "Guidelines for supervision during the master's programme in Social Anthropology": https://www.uio.no/english/studies/programmes/social-anthropology/masterproject/upervision_guidelines.html

I hereby confirm to have read and understood the rights, duties and guidelines regarding supervision during the master programme in social anthropology.
