The exam lasts from 9:30 to 12:00. Your uploaded files will be delivered automatically when the exam is over. You can choose language in the menu in the top right corner.

The exam consists of two parts:

### **1. Final submission of the semester paper**

Formal requirements (length, references, candidate number etc):

The submission is to be done as PDF. For saving as PDF see:

### **2. Exam Questions**

The exam questions must be answered in a text-editing program, for instance word, and uploaded as one PDF-file.

Calculate 2-3 minutes for this before the exam ends!

We recommend that you use a template without a table of contents:

Answer TWO of the THREE assignments in the home exam question section. For all assignments, you should discuss the questions in addition to explaining different arguments from the curriculum. You can freely choose to use contributions from Exphil I (Philosophy and History of Science) and Exphil II (ethics), but it should be clear from your discussion why these contributions are relevant to the assignment.

Recommended time use: Up to one hour per assignment.

#### **Formal requirements:**

- Independence. All parts of the examination must be your own independent work and a result of your own learning and efforts. Therefore: do not “copy and paste”, use your own words, and do not work together with other students during the exam.
- References. If you use literal repetition/word-for-word repetition of something that another author has written then references must be given. Direct citations of text must be enclosed within quotation marks. If you give a free rendering (in your own words) of something another author has written or said (paraphrase), then you do not need to reference. It is not required with a list of references on these home exam questions.
- The candidate number should be given at the beginning of your document. The number of the topics you have chosen should also be given in your document. Do not write your name in the document.

#### **Generally for both the semester paper and the exam questions:**

The exam will automatically be submitted when the exam time is out. If you chose not to submit even though you have started the exam then you must withdraw from the exam, or delete all of the answers that you have made. You can withdraw using the menu in the upper right corner.
