

- i** The exam lasts from 9:30 to 12:00. You can choose language in the menu in the top right corner. When the deadline passes, your answer will be submitted automatically. Please note that it may take some minutes before you can see that it has been submitted.

The exam consists of two parts:

1. Final submission of the term paper
2. Exam questions

The term paper has to be uploaded in part 1. Please note that only PDF-format is valid. The answers to the exam questions in part 2 must be written directly in Inspira's text tool.

Answer TWO of the THREE assignments in the exam question section. For all assignments it applies that you should focus on answering exactly what is asked for, in addition to explaining various arguments that are included in the syllabus. If you on assignments are asked to make reference to texts, you are free to choose contributions from the entire syllabus, but it should be clear from your answer why these are relevant in relation to the assignment.

Recommended time use: Up to one hour per assignment.

You must be familiar with the formal guidelines and the rules for sources and referencing. If submissions fail to refer to sources or coincide with other responses it can lead to suspicion of cheating and can result in serious consequences for you as a student. See e-mail sent 28/4-2021 for further information.

For exam guidelines, see:

<https://www.uio.no/studier/emner/hf/ifikk/EXPHIL03/v21/the-exam-guidelines.html>

If you encounter any technical problems during the exam, you can call the department at 22 84 45 99. Also, you can see a useful FAQ concerning Inspira exams here:

<https://www.uio.no/english/studies/examinations/submissions/frequently-asked-questions.html>

For questions regarding assignments, you can call teachers (not for technical problems) :

- Panos Dimas tlf. 450 66 434
- Ingvild Torsen tlf. 22 85 78 50 (only to 12.00)

Good luck on your exam!

Maximum marks: 0

**2 Answer two out of three questions:**

1. Assume that there is a robot, or a computer with artificial intelligence, that does not have any feelings or emotions. Discuss whether and to what extent this is a benefit or a hindrance to the machine's ability to understand how the world is, that is, to achieve knowledge. Make reference to at least two texts from the curriculum in your response.
2. Describe Aristotle's theory of the four causes, and draw on at least one other text in the curriculum in order to criticize Aristotle's view. (Remember that Aristotle's use of the term, 'cause,' is different from the one we are used to today.)
3. Why does Sylvan think that there is a need for a new ethics. What is his argument? Is it a good argument? Make reference to at least one other text from the curriculum in your response.
