General Information

KRIM2957 - Surveillance: Data, technologies, practices, Autumn 2025

4 hours digital school exam.

Language of examination
The examination text is given in English.
You may submit your response in Norwegian, Swedish, Danish or English.

Examination support material
You may bring up to two copies of a general (non-legal) spelling dictionary, regardless of language. These should not have annotations/notes in them.
No other examination support material is allowed.

Your exam answer
After the exam, you will find your submitted answer under Previous exams.

Best of luck with your exam!

Exam assignment

Answer the following 3 questions by drawing on your knowledge of the course content.

Questions 1 and 2 are short form questions.
Question 3 is a long form question, meaning that you are expected to write a longer and more structured answer that follows an essay structure with an introduction, a main body, and a conclusion.

Please note and respect the word limits for all three questions.

Good luck!

Question 1 (Maximum 500 words)
Define and explain the Panoptic model of surveillance. Drawing on your knowledge of the course content, discuss the model's strengths and weaknesses for understanding contemporary forms of surveillance.

Question 2 (Maximum 500 words)
What is Big Data and how is it changing the purposes and practices of surveillance? In your answer, discuss relevant concepts from the course content as well as relevant empirical examples.

Question 3 (Maximum 1200 words)
Read and analyze the article attached. In your essay, select and use two concepts or perspectives from the course content that you think best explain the trends in surveillance relevant to the article.

1 Response to question 1

Write your answer in the box below. Changes are saved automatically.

Format

Words: 0

Maximum marks: 0

2 Response to question 2

Write your answer in the box below. Changes are saved automatically.
