

JUS5650 Cybersecurity Regulation
2019 Term paper assignment

Various regulatory instruments include provisions focussing directly or indirectly on incidents affecting the confidentiality, integrity and/or availability of data. Please select at least two of the instruments addressed in this course. Compare and critically discuss how these instruments conceptualise and regulate such incidents, including their prevention and their consequences. To what degree do these adequately contribute to effectively tackling cybersecurity incidents in the context of the respective instrument?

The following news story can be used as a source of practical examples of such incidents for the purpose of the term paper: Andy Greenberg, "The Untold Story of NotPetya, the Most Devastating Cyberattack in History", WIRED 22.08.2018, <https://www.wired.com/story/notpetya-cyberattack-ukraine-russia-code-crashed-the-world/>
