

1 Weekly main assignment for week 8 AST3220

Prepare for class

This class will be a pre mid term service class, where you can come and pose any questions you have before the mid term. Useful preparation would be to try and solve any previous mid term exams. Marit will be available and ready to answer any questions on how to solve these, or any general any other mid term related queries. You can also retrieve your mandatory assignments with corrections and any questions regarding these will also be welcome.
