

Weekly assignment for week 16 (31/05/16) AST3220

Mandatory hand-in-assignment

Your solution for ONE of the two following exercises in the lecture notes: 3.1 or 3.2. The important point of this assignment is for you to gauge your knowledge of this chapter. Therefore we strongly recommend that you compile your own independent solution. **Pretty much any attempt at a solution handed in on time will be accepted.**

It should be delivered by Tuesday 31st of May. This is a strict deadline. You can leave it any time in Lluís' post-box (Lluís Mas Ribas, ground floor, next to the printers – main entrance to the right), you can give it to him in office 106 or e-mail it (lluismasribas@gmail.com). (understandable handwriting is appreciated).
