Online Video Illustrations for “New Nomenclature for Drug-Induced Movement Disorders Including Tardive Diskinesia”

Guy Chouinard

In this online-only section, we will provide video illustrations for some of the drug-induced movement disorders described by Chouinard in “New Nomenclature for Drug-Induced Movement Disorders Including Tardive Diskinesia.”

Video Clip 1. Tardive Dyskinesia: A Hyperkinetic Repetitive Purposeless Involuntary, Often Persistent Drug-Induced Movement Disorder (from ESRS-Chouinard Manual)
