International summer school on "Mud Volcanism and Petroleum Systems"

28-Aug- 2 Sept, 2022 - Baku, Azerbaijan - **5 credits**

What is it? A summer school with multidisciplinary lectures and field training activities to learn about fluids plumbing systems from reservoir to surface manifestations.

Who can join? MSc and PhD students or specialists interested to collect data for their projects and to discover aspects of mud volcanism, fluids migration, field techniques, and petroleum systems.

How to join? Send your CV and motivation letter by the 15th of July to:
adriano.mazzini@geo.uio.no
