Det er viktig at du deler de erfaringene du har gjort deg på dette emnet med oss. Vi trenger tilbakemeldinger for å utvikle emnet slik at det blir enda bedre neste gang det gjennomføres. Et redigert sammendrag av dataene fra evalueringen legges ut på Fronter etter at sensuren foreligger, og sendes til fagutvalgene og studieeksjonen.

It is important that you share your experience with us. We need feed-back to possibly improve our performance. A summary of the evaluation will be made available on Fronter after the course.

What was good?

Lots of practicals, and not many students in each group.

dr Griffiths ostrich-photo

Excellent lectures and practicals

Nice with alot of practical work, very relevant practicals

Mulighet til å være med på hele prosessen fra prøve prep til å analysere prøvene. Også bra at det var såpass mye frihet slik at man må være med å ta valg underveis.

Veldig bra veiledning. Frihet til å finne ut av ting selv.

the practicals parts for me and all instructions that we received were the best in this course.

every thing was good.

What could be improved?

more pics like that

More of Lucocq!

Some more immunolabeling would have been good

Dagene med forelesninger med veldig lange tross gode forelesere. Tror dette kan ha mye med inneklima da det er veldig dårlig ventilert forelesningsrom.

The distribution of the lectures.

How was the information/communication on e.g. Fronter etc. *

good	1	10.0 %
very good	9	90.0 %

What was good?

Recieved an e-mail if anything urgent or important.

the comunicés

Fikk all informasjon vi trengte relativt raskt

Bra med en plan over hele kurset.

What could be improved?

Nothing at all

Did the course fulfill your expectations ? *

Svar	Antall	Prosent
no	0	0.0 %
more or less	0	0.0 %
yes	3	30.0 %
better then expected	7	70.0 %

What was good?

Get to work with own project, and get lots of help whenever needed.

seriously, the practical nature of the course

Best course yet!

At det var så mye fokus på den praktiske biten

Jeg synes alle delene av kurset fungerte bra og at det var en fin blanding av praktisk og teoretisk undervisning. Undervisningen holder også et høyt nivå. Særlig bra var forelesningene til John Lucocq. Alle veilederne var hyggelige og hjelpsomme.

What can be improved?

iq test on attending students should be more stringent

Kanksje dele opp forelesningsdagene noe?

How was the work-load compared to the amount of study-points?. *

Svar	Antall	Prosent
small	2	20.0 %
about right	8	80.0 %
too much	0	0.0 %

Great course!

I think that it is not good at all to have the course all day! in a week. It was better if you arrange it in 2 or 3 days a week and expand it for 2 or 3 months. All students in this course are Master or PhD and they have a lot of other things to do, for sure!.In this situation, the student can not do anything else during this one month and maybe they loose some other courses!. Thank you very much for everything :) I really enjoy this course..
