### Home exam in IN5210 fall 2019

#### **Exam in: IN5210 Information Systems**

*Your answer should be between 2000 and 4000 words. Submit your exam using Inspera (<https://www.uio.no/english/studies/examinations/submissions/>). The deadline for submission is November 29<sup>th</sup> at 12:00 (noon).*

*The exam consists of two assignments. Respond to these assignments one by one, and in the order, they are given. We will give the assignments equal weight, so spend the same effort on them.*

*The exam is based on the research article “Recombination in the open-ended value landscape of digital innovation” by Henfridsson et al. (2018). The article is accessible from the usual folder for articles on the website of the course.*

*This exam document is on one page.*

#### **Assignment 1**

- 1a. Explain the central argument(s) in the research article.
- 1b. Explain the main concept(s) in the article.
- 1c. Explain the debate(s) the authors engages in and the key contribution(s) they are making.

#### **Assignment 2**

- 2a. Discuss how the concepts of lightweight and heavyweight IT relate to the central concept(s) in the article.
- 2b. Discuss how one concept/theory from the syllabus can add to or challenge the arguments made in the article.
