

## **Mandatory Report - INF5200, 2016**

The students should work in groups of 2-3 people to produce a written report where topics from the course syllabus are put into context, explored and employed. The groups are to choose between the following three tasks:

- Describe and discuss three different central concepts, of your own choice, from the CSCW literature
- Employ a theory from the CSCW field on a case (preferably your own)
- Compare and contrast two theories from the CSCW field, their main perspectives and biases

The report is expected to make good use of the course syllabus, and refer to other literature if necessary. The process of writing and discussing in the group should make you better prepared for the exam.

The final report is not to exceed 15 pages, including bibliography and appendices, using Times New Roman, font 12 and line spacing 1,5.

The report has to be approved before the students are admitted to the exam.

### **Delivery**

The mandatory group report is to be submitted through Devilry as a PDF no later than 23. May kl 12:00

Remember to include group members' names in the report.

Good Luck :=)
