Feedback on 2nd Interview

general comments

- Prep for the interview and don't be afraid to ask in, if something interesting pops up.
- Did anyone of you learned something unexpected during your interviews?
- Write up / sum up - examples by quoting
- Organizing an interview by themes or topics
- A suggestion could be to use time as indicator if you're not transcribing everything (e.g. something you might consider irrelevant at the moment (5.53 - 7.07 -> previous similar job)) and add a short sentence to indicate what has been 'cut out' from the transcript.
- Non verbal aspects can be noted during the interview
- Benefits / drawbacks using a tape recorder vs. note taking?
