

About old exams (August 2009 Tom Lyche)

Over the years INF-MAT 4350 has changed name and textbook several times. However, you can learn a lot by working on old exam problems. Each exam comes with and without solutions and some of them (but far from all) have texts both in Norwegian and in English. Be aware that the terminology can be slightly different from today. For example “positive definite” in an old exam is the same as “symmetric positive definite” and “orthogonal matrix” is the same as “orthonormal matrix”. Georg and I will gladly answer questions. Good luck. Here is a list of old exam problems.

After lecture you can do problems

- 1 2001(2)
- 2 2002(1)
- 3 2004(2), 2008(3)
- 4
- 5 Jan2004(1,2), 2005(1), 2006(1b,3)
- 6 2002(4), 2003(1), 2004(1), 2005(2), 2006(1a)
- 7 2003(2), Jan2004(3), 2006(1d), 2008(4)
- 8 2001(1,3), 2008(1)
- 9 2002(2)
- 10 2003(3), 2005(3), 2006(1c,2), 2007(1), 2008(2)
- 11 2007(3)
- 12 2007(2)
