*Afternoon sessions (16:00-17:00) are digital in Zoom.

[1] Small changes in the time schedule may occur

There will be lectures each day. After each lecture, I expect you to work on the relevant problem set (probably for most of the rest of the day).

The only purpose of the problem sets is for you to learn. Feel free to work in groups. Answer keys are included in the problem set. I recommend that you try to first solve the problems without looking at the answer keys and then use the answer keys if you get stuck.

There will be TA sessions each day, 4-5 pm. The TA sessions will be on zoom (link will be sent to you).

Syllabus will be available on the course website. Slides and problem sets will be circulated before the first lecture.

There will be a take-home exam to be completed within 5 weeks after the class.
