

	Name	
	School	Supervisor

One practice day does not necessarily last a whole day, but you must be present at the practice school before/during/after the planned components. Pre- and post-practice work related to the content components (e.g., planning, assessing, reviewing, etc.) may also count as practice.

	Content components	Date of execution
Day 1	Introductory meeting with supervisor Introduction to the school and class(es), clarify expectations between student and supervisor, determine content and dates for practice days	
Day 2		
Day 3		
Day 4		
Day 5		
Day 6		
Day 7		
Day 8		
Day 9		
Day 10	Closing meeting with supervisor Review of practice – experiences and evaluation, signing the practice plan	

In what ways has the practice been relevant for your work with the term paper for EDID4015 and/or for your MA thesis?

I hereby confirm that the practice has been executed as described in the plan for practice.
