# EXCHANGE

- ▶ Great options to choose from in the UK and USA
- ▶ We highly recommend you spend at least a semester abroad
- ▶ They are all excellent locations, so base your choice on the course offer
- ▶ Not sure if it's for you? Try the short course in York! Information meeting next Monday at 12.15 in Sophus Bugges hus, seminar room 3

# 40 GROUP

- ▶ 40 ECTS within the same course group
  - ▶ Comparable to a minor as seen in American college movies
  - ▶ Can be built up to a 60 group in a school subject with free subjects
  - ▶ Choose out of interest, not only from what you think might be smart later
  - ▶ Your life does not depend upon the 40 group you choose, so have fun with it
- 

# FUTURE STUDIES

- ▶ A Master's degree is not required, but can come in handy
  - ▶ ILOS offers two separate options within English
    - ▶ English Language and Linguistics
    - ▶ English Literature, American and British Studies
  - ▶ You can also qualify for MA programs at other institutions
  - ▶ Want to be a teacher? You'll need the PPU program (and an MA)
- 

# WHEN I GROW UP, I WANT TO BE...

- ▶ With a degree in humanities, your options are quite varied
  - ▶ Most students seem to think they can only become teachers or translators, but that is not the case
  - ▶ You have a wide range of skills and knowledge that can be adapted into many careers
  - ▶ The subject you study make up about a 5th of your overall skills and knowledge – the other parts come from your own experience, motivations, personal characteristics, general skills you get from studying just about anything, and a whole lot of other skills you may have
