**Thematic focus:** Consent form archive workshop

**Participants:** *Odin Mikal Ekstrøm (Odontology), Hildegunn Dirdal (HF), Anders Lunde (ISP), Ole Smørdal (ISP), Stefano Fasciani (IMV), Gunnar Lid (TLVLab), Bjørn Sverre Gulheim (TLVLab), Jonas Ulleland (Videohub), Torgeir Christiansen (ILS).*

## **Agenda:**

Updates

Consent form archive

**Updates** - Ulleland presented progressions within the different projects in the hub; DYNAKO, QUALIFAIR. Dynako will start with workshops to map out different usecases and QUALIFAIR just got funded. QUALIFAIR startup meeting will be in the end of November.

**Consent form archive** – Based on feedback from the previous meeting the consent form archive is placed in Vortex and will be secured to only be accessible for employees at UIO. As this security was yet not implemented the pdfs with the consent forms was not uploaded and presented in the meeting. Without further introductions the participants in the meeting was able to test the archives operations. The feedback was that the consent form archive looks very good but some more introductory and helping text was needed as well as some more searchoptions.
